Welcome to Dependall

A solid logistics and warehouse operation that can help you cover everything needed to run your business like clockwork – from arranging collection and despatch, to optimum picking and packing processes all underpinned with our Asset track Warehouse Management System.

The growth of the UK warehousing sector over the last six years has been a huge success story as the sector has been pivotal in supporting the growth for many online retailers, manufacturers and other companies.

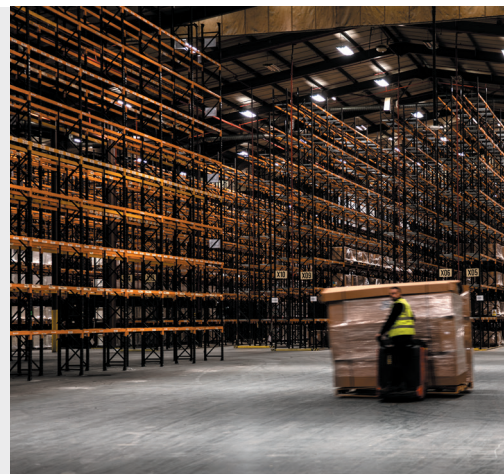

Research from Forrester states that by 2025 online retail will account for 35% of all retail, which means that at least 64m sq ft of additional warehouse space will be needed for that sector alone.

We know the growing need for effective warehouse logistics and storage is more important than ever in recent times and with our 2 primely located warehouse facilities, you can access over 700,000 sq ft. of high and low bay storage from 1 day to years.

We know that being able to react quickly and accurately is an absolute staple of a good warehouse logistics operation. We should know being a trusted logistics partner for the NHS Supply, we pride ourselves on agility with no task being too large or small.

“The trend for larger warehouse units has seen the average sized unit increase from 217,000 sq ft in 2015 to 340,000 sq ft in 2020. In the corresponding period, the average eaves height of warehouses has increased from 11m to 14m.”

Savills

California Drive, Castleford

Our Castleford warehouse's offers great flexibility for pallet racked and bulked storage space, computerised order picking and various pallet handling solutions – customised to suit your requirements. This superb facility boasts additional supporting office space, is suitable for fast product turnaround and provides cross docking opportunities. The warehouse is fully protected by a sprinkler system.

Racking Configurations & Pallet Storage

- High Bay Capacity -15,000 pallets
- Low Bay Capacity - 15,000 pallets
- Racking configurations – Varies from 1.3m & 5m across both High Bay and Low Bay Racking

Internal Floor Space & External Capacity

- Pallet Floor Space is available - please ask for details as this varies depending upon current stock profile. We always allow for good marshalling areas in order to minimise vehicle tipping and loading times.
- External Yard space – is circa 200,000sq ft. with generous external manoeuvring areas available to enable trunking turnarounds and trailer drop service.

24/7 Full Secure Site

Onsite security is provided by Gough & Kelly Ltd who have over 3 decades in onsite security. All of our systems comply fully with current legal and insurance regulations, and with regular patrols and hourly login calls, giving total peace of mind.

The site is fully alarmed along with CCTV cameras giving a full 360-degree coverage, 24/7 across the entire site, controlled by on site security.
